SERVICE CLASSIFICATION NO. 2 (CONT'D)

PURCHASED POWER ADJUSTMENT

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in the NYMPA generic tariff.

The charges billed under this section shall be subject to the late payment rate.

DETERMINATION OF DEMAND:

A demand meter shall be installed at the Utility's option or whenever the customer's energy consumption exceeds 2,000 KWH per month for two consecutive months. The demand measurement shall be the maximum 15 minutes integrated demand occurring during the billing period. If the customer's demand is in excess of 7 KW for two consecutive months, the customer will be transferred and billed in accordance with Service Classification #3.

TERM:

Service may be discontinued by the customers upon two days written notice to the village or by the village in the manner provided by law, or by the rules and regulations in the Schedule.

SPECIAL PROVISIONS:

A. Customer taking service for the operation of welders, X-Ray machines or any other equipment having a highly fluctuating or large instantaneous demand which causes undue voltage disturbance upon the circuit from which service is taken, thereby interfering with the service taken by other customers, shall install or pay for the necessary corrective equipment to avoid such interference with service to others, or failing to do so, shall pay in addition to the charge for service \$.50 per month per KVA of the name-plate rating of such equipment.
