 SERVICE CLASSIFICATION 3 (LARGE COMMERCIAL RATE) (CONT'D)

DETERMINATION OF DEMAND:

The demand used for billing shall be taken as the greater of:

- \* The design demand agreed to, or
- \* The greatest kW integrated demand metered over a fifteen (15) minute period measured during the billing period, or
- \* Three-quarters (3/4) of the highest kW demand occurring during any of the preceding eleven (11) months, at the above-stated rates,

Plus

- \* The measured energy units (kWh), at the above-stated rates,

Plus

- \* The reactive charge (RKVA), if any, at the above-stated rates.

TERMS OF PAYMENT:

All bills are due when personally served or three days after the mailing of the bill and may be paid without imposition of a charge for late payment if paid in full on-or before the "last day to pay" date specified on the bill which shall be at least twenty (20) days after the "due date" or date on which the bill is rendered.

LATE OR DELAYED PAYMENT:

A monthly late payment charge will be assessed at the rate of one and one-half (1 ½ %) percent per month on a customer's unpaid balance, including service billing-arrears and late payment charges. Remittance mailed on the "last day to pay" date will be accepted without the late payment charge, the postmark to be conclusive evidence of the date of the mailing. The failure on the part of the customer to receive the bill shall not entitle him/her to pay without the late payment charge after the "last day to pay" date.

If the monthly bill is not paid on or before thirty-five (35) days after the "due date" shown on the bill, the Commission shall initiate procedures to disconnect service until such time as the delayed payment bill and any applicable charges have been paid. Further information is found in the NYMPA generic tariff.
