 SERVICE CLASSIFICATION 3 (LARGE COMMERCIAL RATE)

AVAILABILITY:

Applicable to the use of service by large commercial, institutional, and industrial customers (above 6,000 kilowatt-hours per month) for, but not limited to, power and lighting.

All energy shall be taken at one point of service and through a single meter for an individual customer or, if there is more than one individual customer in a single structure, the energy shall be taken at one (1) point of service and through a single meter for each individual customer. Each individual meter shall be billed separately in accordance with the rate schedule.

Service under this classification is not available for resale, auxiliary, or standby service of any type.

This rate is applicable for all large commercial, institutional, and industrial service meeting the above definition and located within the area served by the Commission.

TERMS AND CONDITIONS:

This rate is available for total requirements customers who, for any three consecutive months, have a monthly consumption in excess of 6,000 kilowatt-hours (kWh) and demand in excess of 10 kilowatts (kW). This rate is also available for those customers who require demand metering to be installed on their premises.

CHARACTER OF SERVICE:

Continuous alternating current at approximately sixty hertz; at the nominal voltages of 120/240 or 120/208 single phase or 120/208 or 277/480 volts three phase, depending upon the characteristics of the load, the supply circuit, and as available from suitable facilities of adequate capacity adjacent to the premises to be served. 120/240 volts, three phase "delta" service will only be made available from presently existing transformer locations and will not be available if transformer capacity or a new transformer location is required.

<u>RATE</u>	(per meter, per month)	<u>Rate</u>
	Demand Charge:	\$3.25
	Energy Charge, per kWh	\$ .0183
	Reactive Charge (as applicable), per RKVA	\$ .27
