RECEIVED: 03/27/98 STATUS: Cancelled EFFECTIVE: 05/01/98

GENERAL INFORMATION (CONT'D)

AA. Public Service Commission: The agency of the State of New York having regulatory jurisdiction over the Utility.

AB. Service Classification: A statement of given conditions and prices for electric service of a given character to a definite class of customers.

AC. Service Entrance: That part of the wiring from the point of attachment or termination of the service lateral to and including the main service switch on the Customer premises.

AD. Service Lateral: A system of wires or cables, fixtures, and sometimes poles, or the equivalent ducts, conduits and cables (when placed underground) used to conduct electricity from the line by which customer is to be served to the point of attachment on the customer's building, or customer's meter pole in the case of overhead construction, or to the meter box in customer's building in case of underground construction.

AE. Subdivision: A tract of land divided into lots for the construction of new buildings or the land on which new multiple-occupancy buildings are to be constructed, either of which has been approved or was required to be approved by appropriate governmental authority having jurisdiction over land use as defined by 16 NYCRR § 98.1.

AF. Tampered Equipment: Any service related equipment or wiring, that has been subjected to unauthorized interference so as to reduce the accuracy or eliminate the measurement of the Utility's service, or an unauthorized connection occurring after the Utility has physically disconnected service.
