SERVICE CLASSIFICATION NO. 7 (CONT'D)

Private Outdoor Lighting

TERMS, CONDITIONS, AND SPECIAL CONDITIONS (CONT'D):

- C. A self-contained automatic Dusk-to-Dawn 400 watt high pressure sodium or 1000 watt mercury vapor lighting fixture shall be installed, or caused to be installed by the City of Plattsburgh Municipal Lighting department on existing wood pole structures, for the customer, at monthly charge rate of \$13.00 per unit for a minimum two year period. The charge of \$13.00 per month will be added to the customer's monthly utility bill and shall become an integral part of same. The City of Plattsburgh Municipal Lighting Department will be responsible for making the installation, furnishing the electricity for the operation of the lamp, providing all the necessary maintenance (including the replacement of lamps. but excluding malicious damage) for the two year period and all subsequent time addition to the contract.
- D. The Plattsburgh Municipal Lighting Department, at its option, shall make necessary repairs to an existing mercury vapor lighting fixture or replace the mercury vapor lighting fixture with an equivalent high pressure sodium fixture. All new lighting installations will use high pressure sodium fixtures. Mercury vapor fixtures are not available for new installations.
- E. Where necessary for proper illumination or where existing poles are inadequate, the City of Plattsburgh Municipal Lighting Department may install or cause to be installed one additional pole for each installed light, at a distance not to exceed one hundred (100) feet per pole span from said existing lines. Each additional pole span shall not exceed a span spacing of one hundred (100) feet. Additional poles required to install a light in a customer's specifically desired location shall bear a cost of two hundred fifty dollars (\$250.00) for each pole, payable by the customer prior to installation.
