SERVICE CLASSIFICATION NO. 20 (Continued)

APPLICABLE TO USE OF TRANSPORTATION SERVICE FOR:

Any dual-fuel electric generator having capacity of at least fifty (50) Megawatts applying on or after May 18, 1999 for natural gas transportation service for their electric generation equipment for a term of (5) years. This Service Classification does not apply to electric generation customers receiving service prior to May 18, 1999 during the term of such customers' existing contracts. Natural gas transportation service for any requirement other than electric generation, such as ignition gas, space heating, etc, whether or not separately metered, does not qualify for service under this Service Classification.

To obtain service under this Service Classification, Customer must follow procedures for processing requests from electric generators for gas transportation service which appears on Leaf Nos. 427.17 - 427.21. In addition, Customer must enter into a service agreement with the Company, the form of which appears on Leaf Nos. 427.22-427.27. Any Customer that qualifies for service under this Service Classification may take service under Rate Schedule 1. In addition, the Company may, at its option, enter into individually negotiated service arrangements with Customer under Rate Schedule 2, provided that negotiated contracts at similar overall terms shall be available to similarly situated customers. Customers contracting for interruptible service must have complete standby fuel and equipment available for use in the event of a service interruption, unless this requirement is waived by the Company.

Issued by Steven L. Zelkowitz, Sr. Vice President and General Counsel, Brooklyn, NY
