SERVICE CLASSIFICATION NO. 12 (Cont'd)

GENERAL SERVICE TIME-OF-USE RATE (Cont'd)

SPECIAL PROVISIONS

The numbering of the paragraphs hereunder begins with the above service classification number.

- 12.1 Secondary Service with Primary Metering - (The availability of this provision is limited to existing customers at the locations served as of the effective date of this tariff.) When a customer takes service at a secondary distribution voltage, but the Company elects to meter service at the primary distribution voltage, energy charges will be billed in accordance with the rate for primary service. This provision will not apply, however, when the customer installs primary circuits because of the nature of his installation and the Company provides necessary transformers on said circuits and meters the service at the primary distribution voltage.
- 12.2 Primary Service with Secondary Metering - (The availability of this provision is limited to existing customers at the locations served as of the effective date of this tariff.) When a customer takes service at a primary distribution voltage, but the Company elects to meter service at the secondary distribution voltage, energy charges will be billed in accordance with the rate for secondary service.
- 12.3 A customer who is a condominium association or a cooperative housing corporation may have the option, with the consent of the Company, of paying for service taken under this classification for a limited period in equal monthly amounts based on the application of the rate to the estimated usage during the period. At the end of this period, or at the discontinuance of service if prior thereto, the customer shall pay, or be given credit for the difference between the amount paid and the charges for the actual usages under this rate. This payment or refund shall be made under such arrangements as may be agreed upon by the customer and the Company.
- 12.4 Any customer found to have not complied with the residential minimum insulation standards set forth in General Information Section 31 shall be subject to a surcharge of 25% of the bills for gas and electric service otherwise due until compliance is achieved.
