SERVICE CLASSIFICATION NO. 4 (Cont'd.)

TERMS OF PAYMENT:

Bills are due when rendered, subject to a late payment charge in accordance with the provisions of General Information Section 6.7.

TERM:

The term shall be as specified in a service agreement but not more than two years.

SPECIAL PROVISIONS:

(A) Metering

The unit of measurement shall be a cubic foot of gas at an absolute pressure of fourteen and seventy-three one-hundredths pounds (14.73#) per square inch, a temperature of sixty degrees (60E) Fahrenheit and without adjustment for water vapor content. In determining the volume of gas delivered, the Average Absolute Atmospheric (Barometric) Pressure shall be assumed to be fourteen and four-tenths pounds (14.4#) to the square inch, irrespective of actual elevation or location of the delivery point above sea level or variations in actual barometric pressure from time to time. Metered volumes shall be converted to therms for billing purposes by multiplying by the therm factor as described in General Information Section 6.5.

(B) Loss Allowance

The customer shall provide to the Company free of charge 4.89 percent of all gas delivered to the Company's boundary for delivery to customer as compensation for losses incurred by the Company in transporting customer's gas.

(C) Supply

Gas transported hereunder is in addition to and not a part of the Company's system requirements. At the end of each month there shall be determined the net amount of surplus or deficiency in deliveries of gas to the customer's usual service point above or below the volume of gas transported to the delivery point at the boundary of the Company's service area. Within the next succeeding month, the Company shall adjust any net amount of surplus or deficiency by adjusting the volume of gas transported to the customer under this schedule. All gas delivered to the Company for customer's account, not taken by customer by the end of the term of the service agreement, shall be retained by the Company.
