II. 19. CONTINUED

i. Credit for Transportation Sales and Transportation Service Benefits

The Gas Adjustment as computed shall be adjusted to reflect the benefits available to customers subject to the Gas Adjustment from transportation sales (SC 12, 14), transportation service (SC 13D, 13M, 17, 15 and 16) and cogeneration (SC 9 and 10) service as follows:

- (1) The Determination Period to be used in the computation shall be the twelve month period beginning on the first day of October and ending on the thirtieth day of the following September.
- (2) The Refund/Surcharge Period shall refer to the twelve month period beginning seven months following a given Determination Period (May 1 through April 31).
- (3) At the conclusion of each determination period, net transportation sales and transportation service benefits will be computed by adding (i) transportation sales (SC 12 and 14) gas revenues derived during the Determination Period net of gas costs, ULIEEP surcharges, and revenue tax revenues, less \$267,000; (ii) revenues derived during the Determination Period from base rates under SC 13D, 13M, 15, 16 and 17 and cogeneration (SC 9 and 10) gas revenues derived during the Determination Period net of gas costs, ULIEEP surcharges, and revenue tax less \$27,478,000, and further reduced by revenues associated with sales volume shortfalls caused by migration of customers from SC 3 to SC 10 (Sales Service), SC 13D, 13M, 15, 16 or 17 (Transportation Service). Such sales volume shortfalls shall be determined for each SC 10, 13D, 13M, 15, 16 or 17 transportation customer as the lesser of (a) the volume by which the sales forecast for that customer, as adopted by the Commission in Case 95-G-1009 exceeds actual sales to that customer during the Determination Period, and (b) the volume by which the volumes transported for that customer during the Determination Period exceed the transportation forecast for that customer, as adopted by the Commission in Case 95-G-1009. A negative
