INITIAL EFFECTIVE DATE: 10/01/00 SUPERSEDING REVISION:  
STAMPS: Issued in compliance with order in Case 00-G-0996 dated 8/24/00  
RECEIVED: 09/05/00 STATUS: Effective EFFECTIVE: 10/01/00

**Service Classification No. 12**  
**Temperature-Controlled Service - Non-Residential (continued)**  
**(Rate Codes: 330, 331, 332)**

**8a. Additional Charge to Customers:**

For gas consumed in violation of this Service Classification without the express written authorization of the Company, an additional charge of nine (9) times either (1) the sum of the Market Price for natural gas delivered to the Company's city gate on the day of violation plus the transportation rate the Customer would be subject to if it was a transportation customer, or (2) the applicable sales rate, whichever is higher. All charges are subject to all utility taxes and surcharges. Market Price shall be defined as the city gate delivered market price for natural gas on the days of interruption as quoted by "Gas Daily". Where a condition is experienced by the consumer which prevents the required transfer from gas, the customer agrees to immediately notify the Company and to take immediate action to correct such condition, and to notify the Company when such condition has been corrected.

In the event that such notification is given, the consumer shall have four (4) hours within which to correct such condition and the consumer shall not be billed the additional charge for any gas used during such four hour period if such condition is corrected within such period. The imposition of such additional charge shall not limit any rights of the Company to terminate gas service pursuant to any provision of the Company's Rate Schedule or otherwise. In the event that the Company finds that gas is being consumed in violation of this Service Classification and also finds that the interruption thereof would create a danger or threat to health or safety, the Company shall have the option to leave the consumer on gas and such consumer will be charged the additional charge for such consumption as provided herein.
