GENERAL INFORMATION – Continued

63. Firm Gas Demand Response (“DR”) for Commercial, Industrial and Multi-Family Customers

1. Definitions – the following terms are defined for purposes of this Program only:

“**Aggregator**” means an entity that aggregates and represents load and is responsible for the actions of its customers with respect to the Company’s DR programs. Such an entity may also assist customers and property owners/managers with DR program participation. Aggregators may have one or more accounts enrolled in the Company’s Commercial, Industrial and Multi-Family Programs during a given season. Aggregators will only aggregate accounts within the same network and program option.

“**Aggregation**” refers to either a sub-aggregation, or two or more customers and the summation of their respective loads, represented by a Third Party Aggregator or Direct Participant acting as an Aggregator, within a given Network and Program Option, if there are no sub-aggregations for that aggregator within that Network and Program Option.

“**Agreement**” means the Customer’s or Aggregator’s application accepted by the Company, including all related exhibits, schedules, supplements, or attachments thereto. In the event of conflict between the Application (or any related exhibits, schedules, supplements, or attachments thereto), the Tariff, the Tariff shall govern.

“**Baseline**” is a calculated metric that accounts for the fact that not all DR Events or Test Events will occur under Design Day conditions and is an estimate of the natural gas quantity an account would have consumed otherwise on an event day in the absence of a DR program (the counterfactual).

“**Customer**” means the firm, commercial, industrial, or multi-family customer maintaining an account for natural gas service with the Company, in the Company’s service territory (excluding Staten Island) and that satisfies the Program requirements, as determined by the Company.
