**GENERAL INFORMATION – Continued****63. Firm Gas Demand Response (“DR”) for Commercial, Industrial and Multi-Family Customers – Continued**

The Company utilizes the above estimate of Design Day and Design Hour consumption, to arrive at a customer’s maximum potential reduction during an Event, under Design Day conditions, for the specific DR Program Option a customer seeks to enroll in. Participating customers will be required to provide, subject to the Company’s review and acceptance, a commitment for the dekatherm reduction achievable for the specific DR Program option they seek to enroll in. This is the Enrollment Volume. No customer may commit to a value that exceeds that customer’s maximum potential reduction during the event window. Furthermore, customers in the Load Shifting program who commit to partial usage reduction and do not have back-up energy source equipment are advised to commit to a quantity that accounts for baseline usage needs.

**10. Incentive Rates**

The applicable Incentive Rates shall be posted on the Demand Response Incentive Statement filed with the Public Service Commission not less than 60 days before their effective date.
