INITIAL EFFECTIVE DATE: 11/01/22 SUPERSEDING REVISION: 0  
STAMPS: Issued in compliance with order in Case 20-G-0087 dated 10/13/22

**GENERAL INFORMATION - Continued**

**Firm Gas Demand Response ("DR") for Commercial, Industrial and Multi-Family Customers - Continued**

The designated weather stations are shown in the table.

**Demand Response Event: Designated Weather Stations**

Company	Weather Station
KEDNY	LaGuardia Airport
KEDLI	Republic Airport

b. Demand Response Events

For a given day, the Threshold Temperature is evaluated against the forecast of the Low (or Minimum) Temperature for each hour of the gas day, at designated weather stations. If the forecast of low temperature for any hour of the gas day is at or below the Threshold Temperature, the Company is eligible to call a Demand Response Event for customers enrolled in programs that meet such criteria. The Company can call a DR event for customers located in both the KEDNY and KEDLI territories when it meets such requirement at either one or both of the designated weather stations.

c. Emergency Events

The Company may also call Events for any Commercial, Industrial and Multi-Family DR program or option in the event of an unexpected loss of upstream or distribution delivery capacity, extreme weather, or any emergency condition threatening the integrity of the Company's gas systems. Such events are exempt from the Event Threshold Temperature criteria. Emergency Events may be called during any hours and shall not exceed the length of the maximum DR Event window duration for the Program and Program Option in which a customer is enrolled. An Emergency event that does not meet the Event Notification criteria shall not count towards customer Performance Factors. With the exception of these, customers will have the ability to earn Performance Payments. Emergency Events are expected to be extremely rare.

d. Test Events

The Company reserves the right to conduct up to two (2) Test Events per DR season at its discretion. Test events will be operated, paid, and counted as Program events with the exception that such events are exempt from the DR Event Threshold temperature criteria. The Company will conduct a Planned Test Event for all participants early in the DR season where customers will be required to enact their fuel switching, curtailment, or load shifting strategies for a 3-hour period from 6AM-9AM. This Planned Test Event will occur early in the DR season, most likely in November. Performance during this Planned Test Event will count towards customer Performance Factors, and customers will have the ability to earn Performance Payments.
