**GENERAL INFORMATION****24. STANDBY SERVICE AND STANDBY SERVICE RATES (Continued)****24.4 INTERCONNECTION CHARGES**

Customers taking service under this General Information Section shall be subject to the following interconnection charges:

- (1) Customers with generation facilities on their premises that (1) commenced operation between February 1, 2000 and December 30, 2004, have a nameplate rating of 300 kVA or less, and are connected in parallel with a radial distribution feeder; (2) commenced operation between December 31, 2004 and April 28, 2016, have a total nameplate rating of 2 MW or less, and are connected in parallel with the Company's distribution system; or (3) commenced operation after April 28, 2016, have a total nameplate rating of 5 MW or less, and are connected in parallel with the distribution system, shall be subject to the following interconnection charges:
  - (a) Advance payment for the estimated costs of any equipment and facilities installed on the Company's system, including metering, necessary to permit operation of the customer's generation facilities in parallel with the Company's system.
  - (b) Any application fees that may be required as specified in Addendum – SIR;
  - (c) The Company shall reconcile its actual costs of items (a) and (b) with the advance payments made by the customer, and the customer shall pay or the Company shall refund, without interest, the difference.
- (2) The following provisions are applicable to customers with private generation facilities on their premises not connected directly to transmission facilities above 138 kV that (1) commenced operation prior to February 1, 2000; (2) commenced operation between February 1, 2000 and December 30, 2004 and either have a total nameplate rating between 301 kVA and 2 MW or between 401 kW and 2 MW in the case of Farm Waste Generators, or are connected in parallel with a network system; (3) commenced operation between December 31, 2004 and April 28, 2016, and have a total nameplate rating greater than 2 MW and are connected in parallel with the distribution system; or (4) commenced operation after April 28, 2016, and have a total nameplate rating greater than 5 MW and are connected in parallel with the distribution system:
  - (a) Such facilities shall be subject to the interconnection standards set forth in the Company's "Operating, Metering, and Equipment Protection Requirements For Parallel Operation of Generating Facilities" appropriate for the nameplate rating of the customer's generator.
