## **GENERAL INFORMATION**

### **10. CONDITIONS OF GAS SERVICE: (CONT'D)**

#### **F. Emergency Electric Generation:**

The Company will provide gas service where gas is to be used for emergency electric generation under the following conditions:

- (1) Only sufficient emergency electric generating capacity is installed to provide minimum requirements for safety and health.
- (2) The customer will be required to pay for all additional installation costs associated with emergency electric generation service including mains and service laterals and metering if required.
- (3) When the Company has sales restrictions, customers with emergency electric generation will be penalized for excessive usage. Excessive usage will occur when the customer exceeds his existing annual limitation for other uses plus an annual emergency electric generating allotment based on one-half hour testing each week and estimated use during verifiable power outages. Any use in excess of this new annual limitation will be billed, where appropriate, at the maximum tariff penalty for unauthorized use.
