SERVICE CLASSIFICATION No. 3 - Continued

RESIDENTIAL AND RELIGIOUS - HEATING FIRM SALES SERVICE

Minimum Charge Applicable to Large Dual-Fuel Customers – Continued

(1) Minimum Charge – Continued

The Customer's Annual Allocation is the Customer's estimated annual gas requirements on record with the Company.

The monthly minimum charge shall be determined by applying the delivery rates (and/or air-conditioning rates, as applicable) for this Service Classification, whichever is applicable, to two-thirds of 100,000 therms divided by 365 days multiplied by the number of days (approximately 30) in the billing period.

(2) Reconciliation of Minimum Charge:

If a dual-fuel Customer has taken less than the minimum usage for which the Customer was charged in any month or months (shortfall months), there shall be an annual reconciliation between the minimum usage for which the Customer was responsible throughout the previous 12-month period and the actual quantity of service taken by the Customer under this Service Classification during that period. The reconciliation shall take place at twelve-month intervals following the date the Customer is first subject to this minimum charge. If the Customer's actual consumption during the 12-month period was equal to or greater than two-thirds of 100,000 therms, the Company will refund all minimum charges paid in the shortfall months in excess of the amounts applicable to the actual quantity of service taken in those months. If the Customer's actual use during the 12-month period was less than two-thirds of 100,000 therms, the Company may refund any amounts paid in excess of the Customer's minimum charge for the year. However, in no event shall the customer be charged less than the amount based on their actual consumption during the 12-month period.

(Service Classification No. 3 - Continued on Leaf No. 242)
