### SERVICE CLASSIFICATION NO. 2 (Continued)

Table 9 - Street Light Circuit Charge (Standard)

<u>Annual Street Light Circuit Charge per unit</u>	
<u>Street Light Circuit Type</u>	<u>Annual Charge (\$)</u>
Overhead	
Overhead Service	No Charge
Electric distribution system addition/extension	See General Provisions
Underground and Underground Residential Distribution	
Underground and Underground Residential Distribution Services include the first 150 feet or less per circuit section sourcing an individual street light location, at the Company's sole discretion to decide construction technique and materials (cable and conduit, cable only, and direct buried cable), at a rate of:	
Underground Service	126.12
Underground Residential Distribution Service	93.84

#### Excess Circuit Charge

Any excess circuit footage, for both underground and underground residential distribution, will be charged to the customer in accordance with Rule 28 of the Electric Tariff.

#### 8. Convenience Outlet Charge

Convenience (festoon) receptacle outlets, located on lighting Facilities or wood poles, per the written request of the customer for the purpose of providing auxiliary, unmetered, 120VAC electric service. The street light customer responsible for the convenience outlet Facility charge is the responsible party for all energy related charges. The energy (kWh) used through the convenience outlet(s) is billed separately under an appropriate service classification as provided within the Electric Tariff. Table 10 presents the annual Facility charge per unit for any convenience outlet applications.
