### GENERAL INFORMATION - Continued

#### Firm Gas Demand Response ("DR") for Commercial, Industrial and Multi-Family Customers - Continued

Customers wishing to participate in the program will be required to provide, subject to the Company's review and acceptance, the committed dekatherm reduction achievable during the applicable program event windows.

#### 10. Incentive Rates

The Daily Demand Response Incentive Rates shall be shown on the Demand Response Incentive Statement filed with the Public Service Commission not less than 60 days before their effective date.

#### 11. Payment Calculations

Customers will be eligible for incentives earned each season based on the calculations shown below. All incentives earned for the Daily or Hourly Program options will be paid within 90 days of the close of the DR season. Examples of payment calculations can be found on the Company's website at <https://www.nationalgridus.com/NY-Business/Energy-Saving-Programs/Demand-Response>.

##### a. Reservation Payment

An enrolled customer or Aggregator will receive a Reservation Payment equal to the committed event dekatherm reduction multiplied by the Reservation Rate listed above and adjusted by the then applicable Performance Factor ("PF") for each month of the winter season. Customers will not be eligible for a Reservation Payment in any month where an enrolled account's or aggregation's calculated Performance Factor is less than 25%. This performance floor is being instituted to ensure that customers provide reasonable volume commitments and to eliminate the likelihood of adverse incentives.

##### b. Performance Payment

In addition to the Reservation Payment, an enrolled customer or Aggregator may receive a Performance Payment, equal to the applicable Performance Rate of verified daily quantity of natural gas curtailed by a customer during a Demand Response Event or Test Event as set forth below.
