SERVICE CLASSIFICATION NO. 5

LARGE PRIMARY

APPLICABLE TO USE OF SERVICE FOR:

This Service Classification is available to Delivery Service Customers using electric power and/or lighting service through a single delivery location and at a single delivery voltage of 23,000 volts or higher whose registered demand is equal to or greater than 3,000 kW in two (2) consecutive months. Choice of voltage shall be at the option of the Company. All substation, transformer, voltage regulating, and other equipment required for utilization of the delivery voltage shall be owned and maintained by the Customer. Existing Customers served under Service Classification No. 5 at existing locations, irrespective of their current service voltage or substation ownership, may remain on Service Classification No. 5 unless their load level does not meet the requirements of Service Classification No. 5. However, if the Customer's load level increases and requires the Company's substation or voltage level to change, the Company may require the Customer to provide their own substation and take service at a voltage level under which the Customer qualifies for service under this Service Classification.

General Service purposes at Primary Voltages for loads in excess of 3,000 kW.
