

PSC NO: 10 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 11/25/19  
Issued in compliance with Order in Case 15-E-0751 and 15-E-0082 dated 03/09/2017

Leaf: 245.0.1  
Revision: 2  
Superseding Revision: 1

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) – Continued

#### RIDER R – Net Metering and Value Stack Tariff for Customer-Generators – Continued

##### A. Applicability – Continued

###### Phase One Net Metering (“Phase One NEM”)

Phase One NEM is applicable to Customers not eligible for Grandfathered Net Metering that are:

1. Large On-Site Customers or Customers with the electric generating equipment described in A.2, A.3, A.6, and A.7 that is located on the premises of an RNM Host Account or CDG Host Account (up to 137,000 kW of total rated generating capacity of CDG Hosts served under Phase One NEM); provided that 25 percent of interconnection costs have been paid on or before July 17, 2017, or an SIR contract has been executed on or before July 17, 2017, if no such payment is required; or
2. Large On-Site Customers with electric generating equipment described in A.2, A.3, A.6, and A.7 that has a rated capacity of 750 kW AC or lower and has an estimated annual output less than or equal to 110% of that Customer’s historic annual usage in kWhr. Service under this provision will commence with the Customer’s first bill having a “from” date on or after June 1, 2019 unless they choose to opt-in to the Value Stack Tariff.
3. Mass Market Customers with the electric generating equipment described in A.1 – A.7 that is placed in service after March 9, 2017, but no later than January 1, 2020 (unless the PSC issues an Order directing an earlier end-date).

Customers with projects listed under (A)(2) above where 25% of interconnection costs have been paid on or after January 1, 2020, or an SIR contract has been executed on or after January 1, 2020 if no such payment is required, and Customers with projects listed under (A)(3) above that are placed in service after January 1, 2020, will receive compensation under Phase One NEM until such time that a new compensation methodology for these types of projects is effective as directed by Commission Order. After such date, customers will begin to receive compensation under the new methodology instead of compensation under Phase One NEM.

In the event that a single project causes an exceedance of the 137,000 kW threshold for CDG Host Accounts, the project will qualify for Phase One NEM; however, the kW above the 137,000 threshold will be counted as kW under the Value Stack Tariff.
