

PSC NO: 12 GAS
COMPANY: CENTRAL HUDSON GAS & ELECTRIC CORPORATION
INITIAL EFFECTIVE DATE: 05/01/2019
Issued in Compliance with Order in C. 18-M-0679 dated April 22, 2019

LEAF: 25
REVISION: 3
SUPERSEDING REVISION: 2

13. BILLING FOR SERVICE SUPPLIED

Meters of customers will ordinarily be read by the Company at intervals of two months. These meters may also be read by the customer in the intervening month and the reading reported to the Company by post cards, which will be furnished by the Company for that purpose at the customer's request.

Bills will generally be rendered each month, based on either (1) measured monthly usage, as measured by the Company through a meter read or as reported by the customer pursuant to the aforementioned procedure, or (2) an interim estimate of usage. Customers also taking service under General Information Section 38 – Net Metering for Customer Generators of PSC No: 15, will be billed for consumption during the two-month interval between meter readings, unless the customer reports meter readings pursuant to the aforementioned procedure.

When the meter reader is unable to gain access to the meter on any regular meter reading date an estimate of the reading at that time may be used in lieu of an actual reading.

Regular monthly and bimonthly billing periods whose dates are within four days of the same day of succeeding months shall be considered as one month and two months respectively for billing purposes. In determining the charges based on regular bimonthly meter readings the monthly rates stated in the service classifications shall be prorated on a two-month basis.

The length of billing periods other than those between regular monthly and bimonthly meter readings shall be computed to the nearest tenth of a month determined as one-thirtieth of the number of days between the beginning and the end of such billing periods adjusted to eliminate any differences between thirty days and the actual number of days in any calendar month which ended within the billing period. In determining the charges for service supplied during such billing periods the monthly rates stated in the service classifications shall be prorated in proportion to the length of the period so computed.

Whenever a rate change becomes effective during a billing period the superseded rate shall apply to the portion of the customer's usage prior to the effective date of the change and the new rate shall apply to the portion of the usage on and after that date. In determining the usages to which the superseded and new rates apply the total usage during the billing period shall be prorated in proportion to the length of the period before the effective date of the rate change and the length of the period on and after its effective date computed to the nearest tenth of a month. In determining the charges for these usages the monthly rates stated in the service classifications shall be similarly prorated in proportion to the length of the periods in which the superseded and new rates apply.

Special Meter Reading Fee

Central Hudson will charge \$20 per account, per visit, for a meter reading performed on request on a date other than the customer's regularly scheduled meter reading date. Where a customer receives both electric and gas service, the Special Meter Reading Fee for only one service will apply. If the meter can be read without sending personnel to the customer's premises, no special meter reading fee will be assessed.
