

Effective Date: 03/01/2019

PSC NO: 1 GAS LEAF: 133  
COMPANY: KEYSpan GAS EAST CORP. DBA BROOKLYN UNION OF L.I. REVISION: 10  
INITIAL EFFECTIVE DATE: 03/01/19 SUPERSEDING REVISION: 9  
STAMPS: Issued in compliance with Order in C. 16-G-0058 dated 02/07/19

**SERVICE CLASSIFICATION No. 4**  
**Interruptible Gas Service (Continued)**  
**(Rate Codes: 310, 310A, 311, 320, 321)**

**Special Provisions (continued):**

(e) **Unauthorized Use Charge:**

Beginning two hours after a Company-initiated interruption and continuing for the duration of the interruption period, any gas consumed by a Customer in excess of two therms per hour without the express written authorization of the Company will be subject to an additional per therm charge of either (i) two times the sum of the Market Price for natural gas delivered to the Company's city gate on the day of violation plus the transportation rate the Customer would be subject to if it were a transportation Customer, or (ii) nine times the applicable sales rate, whichever is lower. All charges are subject to all utility taxes and surcharges. *Market Price* is defined as the highest city gate delivered price of natural gas at Transco Zone 6 NY, Texas Eastern M3 or Iroquois Zone 2 on the days of interruption, as quoted by Platts' "Gas Daily" report. In the event of consumption of gas during such periods the Company will have the right to estimate the amount of such consumption for the purpose of imposing the additional charge. Such estimate may be based upon the average daily consumption during periods of authorized consumption or upon any other reasonable method, including but not limited to the use of telemetering equipment.

Where a condition is experienced by the Customer that prevents the required switch over from gas, the Customer agrees to immediately notify the Company and to take immediate action to correct such condition, and to notify the Company when such condition has been corrected.

(f) **Remote Reading Devices:** Remote reading devices are required for all Customers contracting for this service. New Customers will be required to pay, prior to the initiation of service and subject to Special Provision (a), the additional cost of the remote device in excess of a regular meter. All Customers will bear all telephone charges for communicating meter usage information to the Company.

(g) **Negotiated Contracts:** The Company reserves the right to negotiate individual contracts with Customers whose annual natural gas requirements equal or exceed 100,000 dth.

(h) **Periodic Review of Distribution System Operating Constraints:** The Company will review the operating constraints on its distribution system on a periodic basis. To the extent the Company finds, as a result of that review, that those constraints have changed, the Company will notify any affected Customers accordingly. If a DSRS Customer's location on the system has been upgraded, the Company will give the Customer the option of electing to receive service under one of the other categories in this service classification. If the location of any Customer receiving service under any of the other categories in this service classification has been downgraded to the point that the Customer's location is in a constrained area, the Company will immediately transfer the Customer to the DSRS category.
