

P.S.C. No. 2 – Water  
SUEZ Water New York Inc.  
Initial Effective Date: August 1, 2020

Leaf No. 33  
Revision: 0  
Superseding Revision:

Customer shall have the protective device tested annually. The Customer will be responsible for all plan submissions, maintenance, testing and reporting procedures required for the device in accordance with the State Sanitary Code.

B. The State Health Department Guidelines regarding cross connection control, including a list of typical establishments requiring devices, are available to the Customer upon request. Details of the Company's cross connection program are also available to the Customer upon request.

C. If the Customer disagrees with a finding for the need of a backflow prevention device, the type of device or the amount of time given to submit plans or to install the device, the Customer has the right to appeal to the State Commissioner of Health. The Customer's appeal shall be submitted to the Company and the State Commissioner of Health within 30 days of the notification of the need for the device. The determination of such appeal by the State Commissioner of Health shall be conclusive.

D. The Company may discontinue service to a Customer who fails to comply with the requirements of the State Sanitary Code or the Public Health Law pertaining to cross connections or the finding and/or determination referred to in the preceding paragraph.

E. The Company, through its properly authorized agents and assistants, may request and, upon the consent of the Customer, may enter the premises of any Customer who is supplied with water to examine the pipes and fixtures, backflow prevention devices, the quantity of water used, the manner and nature of water used, types of stored materials, supplies and products, processes, private wells, swimming pools, underground lawn irrigation systems, fire sprinkler systems, solar heating systems, or any other products or processes which may endanger the quality of the Company's water supply. Alternatively, the Customer may have such an inspection performed by the professional engineer (or architect) licensed and registered in New York State who would certify the result of the inspection to the Company. Certification by Non-Company inspectors must be to the Company's satisfaction.

F. Water service may be discontinued by the Company for refusal to grant access for the aforementioned purposes

1. where the Company has a reasonable basis to believe, from the nature or use or such premises, that a determination should be made as to the existence, non-existence or degree of contamination hazard or

2. where the activities there are comparable or similar to those of typical establishments listed in the State Department of Health guidelines as requiring protective devices. However, the Customer will not be subject to discontinuance if, upon the refusal to provide access, he provides a certification by a professional engineer (or architect) licensed and registered in New York State that a backflow prevention device that meets the requirements of the Company and the State Department of Health has been installed; or, in the alternative, the Customer provides a certification by a professional engineer (or architect) licensed and
