## GENERAL INFORMATION

### II. Rules and Regulations (continued):

.5 Multi-Dwelling Service: Apartments, Condominiums, and Co-operative residences only, with five or more residential dwelling units (containing individual kitchen-bath/sleeping facilities) connected to a common meter when gas is the sole means of space heating and/or water heating will be entitled to service under Service Classification No. 3. As of December 1, 1991, new applicants and those not presently classified as multiple-dwelling accounts under Service Classification No. 3 will be responsible for identifying themselves and for establishing credentials for this service. Customers are entitled to receive Service Classification No. 3 only after the Company verifies that the customer has met the necessary qualifying conditions.

.6 Firm Demand Response Program  
During extreme weather and critical supply conditions, the Company will implement its firm demand response program. This program provides the Company with the right to call upon participating customers to curtail load when necessary. Participants in this program are large commercial, industrial, and multi-family customers selected at the Company's sole discretion. Under the firm demand response program, participants agree to curtail their natural gas consumption for a defined time period in exchange for an economic incentive.
