

P.S.C. NO. 3 ELECTRICITY**ORANGE AND ROCKLAND UTILITIES, INC.**

INITIAL EFFECTIVE DATE: September 1, 2021

SUPERSEDING REVISION:

LEAF: 181.6

REVISION: 3

1

Issued in compliance with Order in Case 19-E-0735 dated 7/15/2021.

GENERAL INFORMATION**13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER N (Continued)****NET METERING AND VALUE STACK TARIFF FOR CUSTOMER-GENERATORS****METERING**

At the discretion of the Company, one or more meters will be used to separately meter the flow of energy in each direction. If: (1) the customer requests metering equipment that is not required by the Company; (2) the customer requires multiple meters in accordance with the SIR to be eligible to receive compensation under paragraph (D) of the Billing – Value Stack Tariff Section of this Rider; or (3) the customer makes a one-time election to change from Option (D)(2)(a) or (D)(2)(b) to (D)(2)(c) of the Billing – Value Stack Tariff Section of this Rider requiring additional meters or other equipment to accommodate the change, such metering equipment shall be installed at the customer's expense.

Meter Upgrades shall be made in accordance with General Information Section No. 7.3 (E). Customer Meter Ownership and Competitive Metering Services are available as described in General Information Section Nos. 7.3 (C) and 7.3 (D), respectively. Eligible customers selecting Competitive Metering Services must obtain Competitive Metering Services for all meters on the account.

Large On-Site Customers, RNM Host Accounts, RC Host Accounts, and CDG Host Accounts are required to have interval metering with telecommunications capability for service under either Phase One NEM or the Value Stack Tariff. Mass Market Customers are required to have interval metering with telecommunications capability for service under the Value Stack Tariff. If interval metering is not required for billing under the customer's service classification or if interval metering cannot be provided through the Company's deployment of AMI meters, the cost to upgrade to an interval meter with telecommunications capability will be at the expense of the customer. The customer shall be responsible for providing, installing and maintaining all communications to the meter. All such communications equipment shall be installed and maintained at the customer's expense and in accordance with Company specifications.

In cases where the Company is unable to read the meter through a customer provided telephone line, and the Company has determined that the problem is not caused by the Company's meter or equipment, the customer will be assessed \$50.00 on each monthly cycle billing date until the condition is corrected. For each billing cycle the telephone line is not operational the Company shall make, and charge the customer for, an on-site meter reading in accordance with Section No. 7(D)(2)(a)(vi) of this Rate Schedule. If the Company is unable to obtain a meter reading, an estimated bill will be issued.
