 SUPERSEDING REVISION: 2

GENERAL INFORMATION

24. STANDBY SERVICE AND STANDBY SERVICE RATES (Continued)

24.5 OTHER PROVISIONS (Continued)

(G) Standby Reliability Credit (Continued)

“Outage Events” are up to three time blocks for each Summer Period that, in aggregate, are comprised of no more than five 24-hour time periods, excluding weekends and holidays. If a time block contains a time period of less than 24 hours, the time period will be rounded up to the next 24 hours (i.e., the 24-hour periods cannot be applied on a partial basis). If a time block encompasses a holiday or weekend, the start of the 24-hour period on the day prior to the holiday or weekend until the same hour the next business day will be considered to be a single 24-hour time period.

“Summer Period” is June 1 through September 30.

A customer seeking a Credit must request such Credit by October 1 of each year for which the credit is sought and, at the same time, specify the Outage Events the customer requests to be excluded from the Measurement Period. If October 1 falls on a weekend or holiday, the Company will accept requests until the next business day.

The Credit for any Measurement Period will be equal to the product of: (a) the difference between the customer’s contract demand and customer’s highest recorded demand during the Measurement Period, excluding Outage Events, and (b) the contract demand Delivery Charge per kW that is in effect on October 1 of the year in which the Credit is determined. The Credit will be applied to the customer’s successive 12 monthly bills commencing in November until the following October. If a customer is billed under 24.5(F) of this General Information Section, the Outage Events for all Recipient Accounts shall be the same and shall be specified by the Sponsor. Each Recipient Account’s Credit will be calculated individually.

(H) All requests for service under this General Information Section must be made in writing.
