## GENERAL INFORMATION

12. ADJUSTMENT OF RATES IN ACCORDANCE WITH CHANGES IN THE COST OF GAS (Cont'd.)

12.2 MONTHLY GAS ADJUSTMENT (Cont'd.)

(H) Non-Pipe Solutions ("NPS") Projects Surcharge (applicable to Service Classification Nos. 1, 2, and 6)

The Monthly Gas Adjustment may be adjusted by a per Ccf rate to recover the revenue requirement associated with Commission approved NPS projects undertaken by the Company until such costs are included in base rates.

The NPS Projects Surcharge shall be determined by dividing the sum of the recoverable revenue requirement detailed above and any prior period reconciliation (i.e., the difference between the amount to be recovered through the NPS Projects Surcharge and the actual amount recovered through the NPS Projects Surcharge) by the forecasted Ccf deliveries to Service Classification Nos. 1, 2, and 6 customers for the period the NPS Projects Surcharge will be in effect.

(I) Balancing Charge (applicable to Service Classification Nos. 1, 2 and 6)

Customers shall be subject to a charge, stated on a cents per Ccf basis and shown separately on the Statement of Monthly Gas Adjustments, to recover balancing costs.

Gas is purchased under a common supply arrangement for both Consolidated Edison Company of New York and Orange and Rockland Utilities ("Companies") as described in General Information Section No. 12.1(C). Balancing ("load following") costs shall be equal to the sum of the Companies' annualized fixed storage charges, fixed pipeline transportation charges from storage to the pipeline delivery point(s) at the boundary of the Companies' service territories, fixed charges for trucked and stored CNG, fixed charges for trucked and stored LNG, suppliers' site development costs related to CNG and LNG projects (including permitting costs; feasibility, engineering and/or operational studies costs; and property acquisition costs) utilized for balancing purposes.
