Service and Rate Classification Information

The questions in this section are designed to assist the Company in placing the customer on the proper and the most beneficial service classification. The Company may rely on this information in classifying the service. A customer may be eligible for service under more than one classification, and one classification may be more beneficial than another. The cost of service may vary under different service classifications. The Company's gas and electric tariffs (PSC No. 219 – GAS and PSC No. 220 – ELECTRICITY) describe each service classification in detail, are available upon request at the Company's business offices, and may be found on the Company's website at www.nationalgrid.com. Questions about service classifications may be discussed with Company representatives by calling 1-800-664-6729. You may also want to consult your contractor for help in completing this form.

If the customer's use of service or equipment changes in the future, the customer must notify the Company of these changes in order to ensure that the customer is being properly billed. If the information provided by the customer relevant to service classification is inaccurate or incomplete, the customer may be subject to backbilling on the correct service classification, or may be precluded from receiving a refund for over charges based on an incorrect service classification.
