

PSC NO: 10 – Electricity	Leaf: 160
Consolidated Edison Company of New York, Inc.	Revision: 2
Initial Effective Date: 12/01/2017	Superseding Revision: 1
Issued in compliance with Order in Cases 16-E-0060 and 16-E-0196 dated 11/20/2017	

GENERAL RULES

20. Standby Service - Continued

20.2 Interconnection and Operation - Continued

20.2.3 Common Provisions

- (A) A Customer taking Standby Service through direct interconnection to a transmission facility shall be subject to interconnection charges imposed under a tariff of the New York State Independent System Operator in addition to any non-duplicative charges hereunder.
- (B) Failure of the Customer to pay any of the interconnection charges or annual charges, when due, shall be cause for termination of service in accordance with the procedures specified in this Rate Schedule.
- (C) Where the meters are Company-owned, the Customer will be responsible for metering costs in excess of the corresponding costs that the Company would have incurred had the Customer taken service under Standard rates.
- (D) The meter required for Standby Service may include equipment either to prevent reverse meter registration or to separately measure Customer-generated electricity and electricity delivered by the Company.
- (E) Export of power into the Company's system will not be permitted under General Rule 20, except as provided under paragraph (B)(7) and (B)(8) of General Rule 20.2.1.
- (F) A Customer may segregate any portion of its total requirements at the premises so that such portion shall be served exclusively with the Company's service under another and appropriate Service Classification consistent with General Rule 8.1.
