

**P.S.C. NO. 3 ELECTRICITY**

LEAF: 181

**ORANGE AND ROCKLAND UTILITIES, INC.**

REVISION: 8

INITIAL EFFECTIVE DATE: November 1, 2017

SUPERSEDING REVISION: 7

Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 9/14/2017.

**GENERAL INFORMATION****13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER N (Continued)****NET METERING AND VALUE STACK TARIFF FOR CUSTOMER-GENERATORS****REMOTE NET METERING AND COMMUNITY DISTRIBUTED GENERATION (Continued)****(A) Remote Net Metering ("RNM") (Continued)**

- (3) The customer shall designate in its initial application for remote net metered service the RNM Host Account and RNM Satellite Account(s) that will be remote net metered. The customer may designate additional RNM Satellite Accounts or remove existing RNM Satellite Accounts once per year, with the new designations to take effect commencing with the January bill issued on the RNM Host Account(s). The customer shall designate whether all or a portion of the net energy credit remaining after being applied to RNM Host Accounts' bills shall be applied to the RNM Satellite Account(s).
- (4) An RNM Satellite Account may have more than one RNM Host Account and may also be a net-metered customer-generator; provided, however, that the RNM Satellite Account cannot also be an RNM Host Account. The aggregate rated capacity of generating equipment of the RNM Host Account(s) designated to serve an RNM Satellite Account plus the rated capacity of net-metered generating equipment on the RNM Satellite Account, if any, shall not exceed 2 MW.
- (5) If a Grandfathered Net Metering or Phase One NEM RNM Satellite Account is also a net-metered customer-generator, charges and credits will first be determined pursuant to paragraphs (C)(1)(a) and (C)(1)(b) of this Rider. RNM credits will then be applied pursuant to paragraph G of this Rider.

**(B) Community Distributed Generation**

Through April 30, 2016, Community Distributed Generation ("CDG") is available where: (a) the generating equipment is located within a CDG Opportunity Zone shown on the Company's website; or (b) a minimum of 20 percent of the CDG Satellites are residential customers enrolled in the Company's low-income program. Thereafter, CDG will be available throughout the service territory.

A "CDG Host" is defined as a non-residential customer that owns or operates electric generating equipment eligible for net metering or the Value Stack Tariff under this Rider and whose net energy produced by its generating equipment is applied to the accounts of other electric customers ("CDG Satellites") with which it has a contractual arrangement related to the disposition of net metering credits.
