other taxes imposed on the ESCO and not required by law to be separately stated. The Company will calculate and identify the sales and use taxes associated with the ESCO charges in accordance with customer-specific tax status information provided by the ESCO and remit such amounts to the ESCO net of the POR discount and such other amounts as set forth in the Company's Consolidated Billing and Assignment Agreement. The ESCO may charge a different price per kWh for each of its customers. The customer shall be billed one rate per billing cycle and such rate will be used for billing purposes for the next bill issued to the customer and every bill thereafter until changed by the ESCO.

ESCO Billing Cost: The Company's charge for its billing service is \$1.30 per Utility Single Bill per monthly billing cycle. This same charge applies whether the Company issues a Utility Single Bill for electric service only or both electric and gas services for a single ESCO. The Company will "net" or offset its remittance payments to the ESCO by the amounts due the Company for billing service charges due from the ESCO. If there is one ESCO for electric service and another ESCO for gas service on a dual service customer's account, the Company will charge each ESCO one-half of the applicable charge.

If an ESCO requests that a Utility Single Bill include an insert required by statute, regulation, or Commission order, and such insert exceeds one-half ounce, the Company will charge the ESCO for incremental postage.

(C) <u>Customer Billing and Payment Processing Charge</u>

A Billing and Payment Processing Charge of \$1.30 per billing cycle shall be assessed on all Full Service Customers and Retail Access Customers electing the Two Separate Bills billing option under General Information Section No. 7. This charge shall be applied only once to a dual service customer bill.
