New York State Electric & Gas Corporation
Initial Effective Date: 10/1/18
Issued in compliance with Order in Case No. 17-M-0815, dated 8/9/18.

Leaf No. 50.35
Revision: 2
Superseding Revision:

GENERAL INFORMATION

39. Tax Credit Associated with the Tax Cuts and Jobs Act of 2017

The delivery rates for service (Delivery Charge per therm) that appear on a customer's bill shall be adjusted to reflect the Tax Credit for all customers. The Tax Credit rates applicable to each delivery rate shall be set forth on the statement (Tax Credit Statement or "TSS").

- A. The TSS is applicable to all customers, regardless of supplier.
- B. The Company shall conduct an annual reconciliation of the Tax Credits provided to customers. The Company shall accrue carrying costs using the pre-tax weighted average cost of capital on the after tax balance.
- C. The effect of the tax credits shall be removed from the "Delivery Revenues" used to calculate the actual billed delivery service revenues per customer before comparison of that amount to the "Revenue per Customer (RPC) Targets" for each service class subject to the Revenue Decoupling Mechanism (RDM).
- D. The TSS shall be filed on not less than 5 days' notice. The Statement shall set forth the credit rates to be applied. Such Statement shall be found at the end of this Schedule.
