SERVICE CLASSIFICATION No. 5A - Continued**Character of Service**

For service to a delivery point within the Company's service territory, the Company will provide gas to the Customer that contains not less than 975 Btu, on a dry basis, per cubic foot at a pressure of not less than four inches of water column gauge, as measured at the Customer's end of the service line. For service to a delivery point outside the Company's service territory under Rate Schedule 2, the Company will provide gas of a quality and at a pressure and heat value content conforming to either the Company's specifications or the specifications of the Company's pipeline transporter.

Service under this service classification is interruptible. In the event that the Company calls on peaking assets to supplement supply to meet high demand or for isolated distribution system reliability reasons in excess of four hours (other than for LNG plant idling or cooling or for system testing), or if the Company, at its sole discretion, determines that it is warranted to protect the reliability and safety of the system for firm Customers, the Company will interrupt service to Customers on this service classification. The Company will endeavor to provide notification (within two hours) of a scheduled interruption in accordance with the Communications Protocol described in this service classification. Upon receipt of such notice, the Customer shall curtail or discontinue use of gas as instructed by the Company (see Special Provisions).

Rate Schedule 1:

Monthly Minimum Charge will be \$375.00 per month.

Volumetric Rate Per Therm: \$.3500 per therm

Demand Charge Per Therm \$.034 per therm

Plus the monthly Merchant Function Charge as stated in Leaf 79.2
