PSC No. 1 ELECTRICITY
COMPANY: BOARD OF PUBLIC UTILITIES
INITIAL EFFECTIVE DATE: April 1, 2016

LEAF: 15
REVISION: 0
SUPERSEDING REVISION:

SERVICE CLASSIFICATION 1 AND 2 AMENDMENT

PURCHASE OF RENEWABLE ENERGY FROM NEW DISTRIBUTED GENERATION

ELIGIBILITY

Residential or non-residential customers who receive service under Service Classification No.1 or 2 and own or operate Solar or Wind Electric Generating Equipment with a rated capacity of no more than fifteen kilowatts (15kW) located and used at their premises. Service will be provided to eligible customers on a first come first served basis through the SBPU's secondary distribution system until the total rated generating capacity of the individual facilities is equal to 200kW, or one-percent of the SBPU's average system load.

REQUIREMENTS FOR INTERCONNECTION

The generating equipment must be designed, installed, interconnected, tested and operated in accordance with the applicable government, industry and SBPU requirements and must comply with the New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems which is available on the New York State Public Service Commission website. The system design output shall not exceed 100% of the prior 12 months of metered energy consumption.

METERING

The SBPU will provide one revenue meter for the purpose of billing. This meter will have bidirectional energy flow capability to determine the net amount of energy delivered or received by the SBPU. The charge for this meter will be included in the applicable monthly service charge.

INTERCONNECTION COSTS

Customers receiving service under this service classification will be responsible for 100% of the necessary interconnection costs. These costs shall include the cost of installing any equipment deemed necessary by the SBPU to protect the safety and adequacy of electric service to other customers as required under Standard Interconnection Requirements.

CUSTOMER CHARGES

The Customer will pay the rates and charges of the Customer's applicable Service Classification for net energy supplied.

CUSTOMER CREDIT

1. If a customer produces more energy than consumed during an individual monthly billing cycle a kWh credit will be carried forward until consumed or the end of the calendar year.
