GENERAL RULES

26. Additional Delivery Charges and Adjustments - Continued

26.5 Renewable Portfolio Standard Charge

Customers taking service under any Service Classification under this Rate Schedule (excluding SC 11 and load served under Special Provision G of SC 9) are subject to a separate charge for the Renewable Portfolio Standard (“RPS”) program, as directed by the Public Service Commission in its September 24, 2004 Order and amended by its April 2, 2010 Order in Case 03-E-0188. The RPS Charge is applicable to all Customers who pay the System Benefits Charge, as described above, and is required to fund above-market costs of renewable resources under the RPS program administered by the New York State Energy Research and Development Authority. The unit charge to collect each calendar year’s funding amount, as established by the Commission, and any reconciliation amount, as described below, shall be set forth on the Statement of Charge for Renewable Portfolio Standard Program. Each collection period will be for 12 months, commencing three months prior to the applicable calendar year. Any over- or under-collections for each calendar year will be reconciled and included in the subsequent year’s amount to be collected. Any over- or under-collections of the RPS Charge for the last calendar year for which the RPS Charge is applicable will also be reconciled and credited to or collected from Customers in a manner to be determined by the Commission. The Statement and changes thereto will be filed with the Commission no less than three business days before its effective date.
