

**P.S.C. NO. 3 ELECTRICITY
ORANGE AND ROCKLAND UTILITIES, INC.**

INITIAL EFFECTIVE DATE: July 20, 2015

LEAF: 184.1
REVISION: 1
SUPERSEDING REVISION: 0Issued in compliance with Order in Cases 14-E-0151 and 14-E-0422 dated 4/17/2015.

GENERAL INFORMATION**13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER N (Continued)****NET METERING FOR CUSTOMER GENERATORS****BILLING (Continued)**

(C) (Continued)

- (5) For customer-generators that participate in Remote Net Metering and meet the criteria outlined in paragraph (C)(7) of this Rider, if the Host Account's monetary credits determined in paragraph (C)(4) of this Rider exceed the outstanding electric charges on the Host Account's bill, all or a portion of the remaining monetary credit, as designated by the customer in its application for remote net metered service, shall be applied to electric charges on the Satellite Account(s) in the order in which the Satellite Account(s) are billed until such time that the monetary credit is reduced to zero or all Satellite Account(s) have been credited. If more than one Satellite Account bills on the same day, the monetary credit shall be applied to the Satellite Accounts in order of kWh usage from highest to lowest. If a monetary credit remains after all Satellite Accounts are credited, the remainder of the monetary credit shall be carried forward to the succeeding billing period on the Host Account.
- (6) For customer-generators that participate in Remote Net Metering and do not meet the criteria outlined in paragraph (C)(7) of this Rider, if the Host Account's monetary credits exceed the outstanding electric charges on the Host Account's bill, the remaining monetary credits shall be converted at the per-kWh rate applicable to the Host Account to kWh credits and applied to the Satellite Account(s) in the order in which the Satellite Account(s) are billed. If more than one Satellite Account bills on the same day, credits shall be applied to the Satellite Account(s) in the order of kWh usage from highest to lowest.

Volumetric credits applied to the Satellite Account(s) shall reduce the Satellite Accounts' billed kWh. If a Satellite Account is billed under time-of-use rates, the kWh credits shall be applied in proportion to the usage in each time period.

For each Satellite Account, any volumetric credits remaining in excess of the amount required to reduce the Satellite Account's billed kWh to zero shall be applied to the next billed Satellite Account. If a kWh credit remains after all Satellite Accounts are credited, the remainder of the kWh credit shall be carried forward to the succeeding billing period on the Host Account.
