

**P.S.C. NO. 3 ELECTRICITY
ORANGE AND ROCKLAND UTILITIES, INC.**

LEAF: 156.10

REVISION: 0

INITIAL EFFECTIVE DATE: July 1, 2015

SUPERSEDING REVISION:

Issued in compliance with Order in Cases 14-E-0423 and 15-E-0191 dated 6/18/2015.

GENERAL INFORMATION**13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER E (Continued)****COMMERCIAL SYSTEM RELIEF PROGRAM****RESERVATION PAYMENT OPTION (Continued)****(D) Performance Payments for Load Relief**

Except as specified in the Payments Made Under Both Options section, the Company will make a Performance Payment to a Direct Participant or Aggregator who provides Load Relief during a Planned Event or Test Event.

The Performance Payment amount paid per event is equal to the Performance Payment rate of \$0.50 per kWh multiplied by the average hourly kWh of Load Relief provided during the event multiplied by the number of event hours.

(E) Performance Adjusted kW

The Performance Adjusted kW must be a level such that:

- (1) It is equal to or less than the average hourly kW of Load Relief that was provided during the most recent event (i.e., Test Event, Planned Event, or Unplanned Event);
- (2) It is greater than the kW of Load Relief on which the last payment was based; and
- (3) It cannot exceed the kW of contracted Load Relief.

The Performance Adjusted kW will become effective on the first of the month following the date the request is received. If the request is received late due to the Company's delay in providing interval meter data, the Performance Adjusted kW will be applied retroactively, effective as of the first of the month after the event on which the Performance Adjusted kW calculation is based occurred. The new kW level will remain in effect until the earlier of:

- (1) a month in which a new Performance Adjusted kW is requested and approved pursuant to (F) below;
- (2) the average kW for all events in a month represents kW of Load Relief that is lower than the Performance Adjusted kW. In this case, the new lower kW is used to calculate payment and a penalty is applied for the shortfall between the new kW amount and the Performance Adjusted kW; or
- (3) the term of service under this Rider ends.
