SUPERSEDING REVISION:

SERVICE CLASSIFICATION NO. 25 (Continued)**SPECIAL PROVISIONS: (Continued)**

(F) (Continued)

(2) Interconnection

The interconnection will be subject to the specified Interconnection Charges of this Service Classification and must meet the Interconnection Requirements specified in this Service Classification. In addition, the interconnection must be technically and economically practicable, and the connection and operation of such facility shall not jeopardize the safety or operation of the Company's system, facilities or other customers.

(3) Accounts Supplied by the Generating Facility's Output

- (a) Each account must be eligible for billing under Standby Service Rates and must be billed under the Standby Service Rate applicable to that individual account.
- (b) Accounts served under this Special Provision must be either all Full Service or all Retail Access.
- (c) If the accounts are Retail Access accounts, all supply in excess of that supplied by the customer's private generating facility must be supplied by a single ESCO unless the customer elects to be a Direct Retail Customer as defined in General Information Section No. 2.2.
- (d) No account served under this Special Provision may be served under Rider B or Rider C.
- (e) None of the accounts served under this Special Provision may receive consolidated billing (described in General Information Section No. 7.5).

(4) Contract Demand for Each Account Supplied by the Generating Facility's Output

The contract demand for each account will be determined based on the maximum potential demand on the Company's system to serve that individual account, including the delivery of supply from all sources.
