

PSC No: 16 - Gas
Rochester Gas and Electric Corporation
Initial Effective Date: July 1, 2016
Issued in compliance with Order in Case 15-G-0286, dated June 15, 2016

Leaf No. 51
Revision: 2
Superseding Revision: 0

GENERAL INFORMATION

3. EXTENSION OF COMPANY FACILITIES TO SERVE CUSTOMER (Cont'd)

A. PROVISION OF GAS SERVICE (Cont'd)

(4) Customer Charges for Additional Facilities (Cont'd)

- (b) If, in order to provide service to an applicant, the Company must install service lines, service connections and appurtenant facilities in addition to those required to be provided without charge under Rule 3.A.3, the applicant shall pay the Company's costs and expenses for said facilities.

The route of the service line and the location of the meter shall be satisfactory to the Company. Should the applicant request a route for the service line or a location for the meter different from those selected by the Company, such changes shall be made, if found feasible by the Company's engineers provided the applicant pays the Company's costs and expenses to make such changes.

Any relocation of a service line, or a portion thereof, requested by the customer or any relocation required to remedy a condition constituting a violation of a law or ordinance which has been caused by or is the responsibility of the customer, shall be performed by the Company at the expense of the customer.

Customers may install, at their own expense, service lines or trench (beyond that required to be provided by the Company without charge) in accordance with such rules, and regulations for the construction thereof as may be filed in the Schedules of the Company. Before service is supplied to any location, all piping and equipment must be inspected and approved by the inspector of the Company.

- (c) In areas where gas service is supplied directly from high pressure pipelines used for transmission of gas at pressures in excess of those carried in pipelines utilized for distribution purposes, the Company shall, at the Customer's expense, furnish and install the necessary field regulator or regulators required to reduce the pressure at the high pressure pipeline to a suitable distribution pressure' said regulator or regulators and required fittings and connections to be installed at the point of connection between the Customer's service line and the high pressure pipeline. The Company shall also, at the Customer's expense, furnish and install a safety device so adjusted as to operate and relieve any pressure on the Customer's service line deemed by the Company to be unsafe or too high for satisfactory service. The Company shall also, at the Customer's expense, furnish and install satisfactory housing for the regulator equipment and for the meter to be installed by the Company.

The Company shall, at its expense, furnish, install and maintain a suitable service regulator as provided to customers in areas served by medium pressure distribution facilities and, also, a suitable meter for the measurement of the gas. In addition, the Company shall, upon reasonable notice, in the interest of safety, or satisfactory service, provide adjustment or maintenance service on all pressure regulating equipment; however, any materials which may be required in the servicing and maintenance of regulating equipment furnished at the customer's expense shall be subject to charges in accordance with Section 4.C and 4.A.(3)(b) of this Schedule.
