REVISION: 1

0

Issued in compliance with Order in Case 15-E-0557 dated 03/18/2016.

GENERAL INFORMATION**9. INTERCONNECTION OF NON-COMPANY GENERATING EQUIPMENT****9.1 GENERATORS OPERATED IN PARALLEL WITH THE COMPANY'S DISTRIBUTION SYSTEM**

No generating equipment shall be operated in parallel or synchronism with the Company's distribution system, except as specifically authorized by the Company in accordance with the following provisions.

(A) The following provisions are applicable to customers that have generating facilities on their premises that (i) commenced operation between February 1, 2000 and December 30, 2004, have a total nameplate rating of 300 kVA or less or 400 kW in the case of Farm Waste Generators, and are connected in parallel with a radial distribution feeder; (ii) commenced operation between December 31, 2004 and April 28, 2016, have a nameplate rating of 2 MW or less, and are connected in parallel with the distribution system; or (iii) commenced operation after April 28, 2016, have a nameplate rating of 5 MW or less, and are connected in parallel with the Company's distribution system:

- (1) Applications for service for generating equipment with a total nameplate rating 5 MW or less and applications for service for single phase generating equipment with a total nameplate rating of 15 kW or less shall be made using the applicable application form set forth in Addendum – SIR.
- (2) The conditions under which generating equipment shall be interconnected and operated in parallel with the Company's system are set forth in Addendum – SIR. Assuming the conditions of the Addendum - SIR are met, the Company and the customer shall execute the New York State Standardized Contract set forth in Addendum - SIR.
