

PSC NO: 10 – Electricity
Consolidated Edison Company of New York, Inc.
Initial Effective Date: 04/01/2017
Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 03/09/2017

Leaf: 249.4
Revision: 2
Superseding Revision: 1

GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER R - Net Metering for Customer-Generators - Continued

F. Remote Net Metering and Community Distributed Generation - Continued

2. Community Distributed Generation - Continued

c. Allocations of Generators' Output

At least 60 days before commencing net metered service under CDG, the CDG Host must submit to the Company its list of CDG Satellite Accounts and the percentage (at up to three decimal places of accuracy) of the CDG Host's net energy output to be allocated to each, as well as the percentage to be retained by the CDG Host. If less than 100.000% of the CDG Host net energy output is allocated by the CDG Host, the balance will be retained on the CDG Host Account, so that the full output of the CDG Host generation is allocated. Allocations that total more than 100.000% shall be rejected.

For any monthly billing period in which there is insufficient metering data available to ascertain the kWhr supplied by the CDG Host to the CDG Satellite Accounts, the CDG Host's excess credits will be assumed to be zero. If actual data later becomes available, credits will be applied as appropriate.

After commencing net metered service under CDG, the CDG Host may modify its CDG Satellite Accounts and/or the percentage allocated to itself or one or more of its CDG Satellite Accounts once per CDG Host billing cycle by giving notice to the Company no less than 30 days before the CDG Host Account's cycle billing date to which the modifications apply.

The CDG Host must furnish to the Company, once each year, no less than 30 days before the CDG Host's 12-month anniversary of commencing CDG net-metered service, written instructions for allocating the kWhr credit or monetary credit, as applicable, that remains on the CDG Host Account at the end of the annual period ("Annual Credit") to one or more of its CDG Satellite Accounts. No portion of the Annual Credit may be allocated to the CDG Host Account. No distribution will be made if instructions are not received by the required date.

The CDG Host Account may retain, for up to two years, any undistributed credit that remains after the Annual Credit is distributed to the CDG Satellite Accounts, provided that the CDG Host, in its instructions for allocating the Annual Credit, allocated credits to each CDG Satellite Account equal to no less than the CDG Satellite Account's total kWhr usage in the final month of the annual period, if the CDG Host Account is billed for energy-only, or no less than the CDG Satellite Account's monthly electric charges in the final month of the annual period, if the CDG Host Account is demand-billed. At the end of the two-year period, the CDG Host Account will forfeit credits (i.e., kWhr credits if the CDG Host Account is billed for energy-only or monetary credits if the CDG Host Account is demand-billed) equal to the smallest number of credits in its account at any point during the two-year period.
