

PSC NO: 220 ELECTRICITY
NIAGARA MOHAWK POWER CORPORATION
INITIAL EFFECTIVE DATE: MARCH 17, 2017
STAMPS: Issued in Compliance with Order issued October 16, 2015 in Case 15-E-0267.

LEAF: 199.2.1
REVISION: 0
SUPERSEDING REVISION:

GENERAL INFORMATION

36.7.2 To qualify as a satellite account to the host account, the following requirements must be met:

- 1) The satellite account must be designated as premises owned or leased by the host account Customer-Generator and in the same name in the Company's billing system as the host account Customer-Generator.
- 2) Both the satellite account and the host account Customer-Generator must be within the same Company's service territory to which the Customer-Generator's net energy meters are interconnected.
- 3) The satellite account must be in the same load zone as the host account Customer-Generator as of the date of the initial application of the host account Customer-Generator for remote net metering and must remain in the same load zone as the host account Customer-Generator to continue to be eligible to receive excess net metering credits.
- 4) A satellite account cannot be a host account Customer-Generator.

36.7.3 In the event that the amount of electric energy supplied by the Company during the billing period exceeds the amount of electric energy provided by the host account Customer-Generator to the Company during the same billing period, the Company shall charge the host account Customer-Generator the rates provided in the retail rate schedule applicable to the host account Customer-Generator for only the difference between these two amounts.

36.7.4 In the event that the amount of electric energy provided by the host account Customer-Generator to the Company in any billing period exceeds the amount of electric energy supplied by the Company to the host account Customer-Generator during the same billing period, the host account Customer-Generator shall be regarded as having received no electric energy (in kWh) during that billing period.

Prior to June 1, 2015 For Residential, Non-Residential Non-Demand and Demand Metered Customer-Generators (For Rules after June 1, 2015, see Rule 36.7.5).

36.7.4.1 If the host account Customer-Generator has excess on-site generation, the excess generation shall be converted to a monetary credit at the host account Customer-Generator's applicable tariff per kWh rate and applied as a direct credit to the host account Customer-Generator's outstanding electric delivery charges, with the exception of Fuel Cell Generators and non-farm based Farm Waste Generators who will be credited at SC6 avoided cost rates.

36.7.4.2 In the event that the excess on-site generation of the host account Customer-Generator as described in 36.7.4.1 above exceeds all components of the host account Customer-Generator's outstanding utility bill, the remaining monetary credit will be allocated to the eligible designated satellite accounts in the following manner:
