SERVICE CLASSIFICATION NO. 8 (Cont'd)

LARGE GENERAL SERVICE- TIME-OF-USE RATE

HIGH VOLTAGE OPTION (Cont'd)

Effective September 26, 2010, Subtransmission Service shall be grandfathered. The grandfathering shall apply to the service location including the site and existing buildings where customers taking Subtransmission Service before September 26, 2010. Grandfathering is applicable to any new owner acquiring possession of a grandfathered service location, as long as they meet the qualification criteria for Subtransmission Service. The grandfathering may apply to facility replacements and or expansions by customers taking grandfathered Subtransmission Service, if accomplished through existing subtransmission metering points at the service location. Subtransmission service shall not be available to new service locations.

SubTransmission charges shall apply to:

1. Customers taking service at 34,500 volts, provided, however, such customers were taking service hereunder prior to September 26, 2010, or
2. Customers taking service at 11,500 volts, provided, however, such customers were taking service hereunder prior to August 1, 1988.

Transmission charges shall apply to customers taking service at 115,000 volts.

Substation charges shall apply to:

1. Customers taking service from a dedicated substation at primary or secondary voltages but whose incoming supply voltage is at 34,500 volts or above and who are metered with respect to the incoming supply voltage provided, or
2. Customers taking Substation service (formally known as Sub Transmission – Secondary service) prior to September 26, 2010.

TERMS OF PAYMENT:

All bills are rendered at the above rate. A late payment charge of 1½%) per month shall become due and payable if payment is not made on or before the "last day to pay" date specified on the bill in accordance with the provisions of Rule 4.C.(2).

TERM:

One year and thereafter until terminated by 30 days' notice. However, when the amount of investment required or other conditions of service are such as to warrant, the Company, with the permission of the Public Service Commission, may agree with the customer to render service at rates from time to time effective for a longer term.

SPECIAL PROVISIONS:

1. Power Factor Adjustment
Applicable to customers not subject to a reactive charge, whenever the customer's equipment is so operated that the maximum kilovolt- amperes of lagging reactive demand exceed 48% of the maximum kilowatt demand during the billing month, the customer shall remedy that condition in a manner deemed adequate by Company, by either:
 - a. Installing and maintaining at its own expense the power factor corrective equipment deemed necessary by Company to remedy the condition, or
 - b. Making a cash contribution of the actual reasonable cost of any power factor corrective equipment installed by Company on its side of the point of delivery to effect such correction.
