## GENERAL RULES

### 20. Standby Service

Customers who take Standby Service are subject to all terms and conditions of this General Rule, including the Interconnection Charge, whether they are billed under Standby Service rates or Standard rates.

General Rule 20 is not applicable to generating facilities that are served under Rider R or used for emergency self-supply under General Rule 8.2.

#### 20.1 Definitions and Abbreviations

- “Standby Service” means the delivery of power and energy that is used:
  - (a) to replace and/or supplement the power and energy ordinarily generated by means of a private generating facility on a Customer’s premises, or
  - (b) for Station Use by a Customer that is a Wholesale Generator. “Wholesale Generator” is a generator that delivers its output directly to the Company’s facilities for sale on a wholesale basis. “Station Use” means:
    - (i) power and energy is delivered over the Company’s distribution facilities at a voltage lower than 100 kV for the Customer’s use at its premises in connection with its generating facility; and
    - (ii) the Customer has provided written proof to the Company that it is registered with the NYISO under the provisions of the NYISO “ISO Market Administration and Control Area Services Tariff” (“Market Services Tariff”) to self-supply and net station power.
- “Standby Service rates” refers to the following Rates, as applicable: Rate III or Rate IV of SC 5, Rate IV or Rate V of SC 8, 9, or 12, or Rate II of SC 13. Customers who take the Company’s Standby Service are billed under Standby Service Rates unless they are exempt pursuant to General Rule 20.3.
- “Standard rates” refers to the rate under which the Customer would otherwise be billed if it was not supplied by a private generating facility or was not a wholesale generator.
