10.5 Discontinuance of Residential Service – Special Procedure

Special emergency procedures, required by 16 NYCRR S.14.5 provide special protections for specified Residential Customers regarding the termination and restoration of service in cases involving medical emergencies, the elderly, blind or disabled, and terminations during cold weather periods for premises with heat-related service.

10.6 Reconnection of Service

A. The Company will reconnect residential service that has been terminated within 24 hours of the Customer's request for reconnection, unless prevented by circumstances beyond the Company's control or unless a Customer requests otherwise, upon receipt of the full amount of arrears for which service was terminated; upon receipt of a signed payment agreement covering the full amount of arrears for which service was terminated, and any applicable charge for restoration of service, and the receipt of a down payment, if required under that agreement; upon direction by the Commission or its designee; or where the Company has received notice that a serious impairment to health or safety is likely to result if service is not reconnected. Doubts as to whether reconnection is required for health or safety reasons will be resolved in favor of reconnection.

Where circumstances beyond the Company's control prevent reconnection within 24 hours, the Company will immediately attempt to notify the Customer and reconnect service within 24 hours of the elimination of those circumstances.
