

PSC NO: 10 – Electricity
Consolidated Edison Company of New York, Inc.
Initial Effective Date: 02/01/2017
Issued in compliance with Order in Cases 16-E-0060 and 16-E-0196 dated 1/25/2017

Leaf: 250
Revision: 4
Superseding Revision: 3

GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER R - Net Metering for Customer-Generators - Continued

G. Charges and Credits

1. Charges to a Customer Served Under this Rider

- a. The Customer will pay the rates and charges of the Customer's applicable Service Classification for net energy supplied by the Company. If the Customer is served under time-of-day ("TOD") rates, the charge for net energy supplied by the Company will be determined for each time period.

For a Full Service account served under Rider M or a Retail Access account that would otherwise be served under Rider M on a mandatory basis, kilowatthour charges/credits for supply will be determined for each hour in which electricity is either consumed or produced and then summed for the billing period. If the result is a net credit for the billing period, the credit will be applied towards any outstanding charges, and any remaining credit will be carried forward to the succeeding billing period.

- b. A Customer served under this Rider shall pay any customer charge or minimum charge, Billing and Payment Processing Charge, and/or Charges for Metering Services, and any other rates and charges under the Customer's applicable Service Classification regardless of whether the amount of energy produced by the generating equipment is less than, equal to, or greater than the amount of energy used by the Customer. A Customer taking service under a demand-billed Service Classification shall pay kW delivery charges based on the maximum demand delivered by the Company to the Customer during the billing period, and, if this is a Full Service account, shall pay kW supply charges as described in General Rule 25.1.
- c. The following provisions are applicable to all Customers served under this Rider except for Satellite Accounts:

The Customer will be exempt from the Minimum Monthly Charge specified in General Rule 10.10. A Customer served under both this Rider and Rider Y shall be subject to all Rider Y terms and conditions, except that Contract Demand will not be used to determine demand delivery charges. If a Customer is served under both this Rider and Rider J, the Energy Delivery Charge reductions under Rider J will be applicable only to the net energy delivered by the Company.

- d. A Retail Access Customer may enter into a net metering arrangement with an ESCO. The Customer will pay the applicable rates and charges of the Customer's Service Classification based on the net amount of energy delivered by the Company during a billing period. The Customer will receive credits for supplying net energy to the Company as set forth in paragraph 2 below.
