

PSC No: 120 - Electricity
New York State Electric & Gas Corporation
Initial Effective Date: January 1, 2017
Issued in compliance with Order in Case 16-M-0430, dated December 19, 2016.

Leaf No. 294.14
Revision: 1
Superseding Revision: 0

SERVICE CLASSIFICATION NO. 11 (Continued)

(g) Standby Offset

Eligibility (Cont'd)

1. Standby Generation Account (Cont'd)

- g. Customers that have a Standby Generation Account may take service under the Company's Buy Back service, Service Classification No. 10, if the export of the generating facility exceeds the aggregate registered kWh usage on the Standby Generation Accounts and the Standby Supplied Accounts.

2. Standby Supplied Accounts

The Standby Supplied Accounts designated by the Standby Generation Account customer must all be established in a single customer's name ("Single Party Offset"); or

- a. The Standby Generation Account and the Standby Supplied Accounts designated by the customer to receive the output of the generating facility may be established in two or more customer names ("Multi-Party Offset"), provided all of the following conditions are met:
 - (1) at least one of the Standby Supplied Accounts must be in the same customer name as the Standby Generation Account (owner or operator of the generating facility or ("Sponsor")) and have a Contract Demand equal to 10% or more of the nameplate rating of the generating facility;
 - (2) the Sponsor shall be responsible for coordinating the interconnection and operation of the generating facility with the Company; and
 - (3) at the time of application under the Multi-Party Offset, the Sponsor must submit a signed application for all Standby Supplied Accounts to be supplied by the output of the Sponsor's generating facility ("Recipient Accounts") and a signed Percentage Allocation Form. Both forms shall be available on the Company's website.
- b. The Standby Generation Account, and the Standby Supplied Accounts must all be located within a single "premises." For purpose of this Special Provision only, "premises" is defined as follows:
 - (1) Under Single Party Offset, "premises" shall mean "a parcel of land; or more than one building and/or parcel of land proximate to each other if there is common use, whether or not such buildings or parcels are separated by public or private roads." All of the Standby Supplied Accounts must be connected to the Company's distribution system. All standby accounts must be within the same load zone as determined by the Locational Based Market Price. The accounts of a customer whose buildings or parcels of land are not physically interconnected may meet the definition of a single "premises" upon the customer's demonstration of proximity and common Company facilities to the Company.
 - (2) Under Multi-Party Offset, "premises" shall mean "a single building."
