GENERAL INFORMATION

1. Territory to Which Schedule Applies:

Entire territory served with electricity as more fully described in Schedule P.S.C. No. 120 - Electricity, or superseding issues thereof.

2. Determination of Demand and Energy Use:

The kW for billing purposes ("Billing kW") is determined by dividing the total wattage for each luminaire in service by 1,000, as set forth in the tables below.

The energy use in kilowatt-hours shall be determined by multiplying the Billing kW by the number of burning hours for the billing period.
