Leaf No. 48
Revision: 1
Superseding Revision: 0

GENERAL INFORMATION

3. EXTENSION AND MAINTENANCE OF COMPANY FACILITIES TO SERVE CUSTOMER (Cont'd)

D. PLURALITY OF SERVICES

(1) General Rule

All service to a customer's premises shall be rendered through a single service lateral and meter.

The conditions and circumstances enumerated in Rules 3.D.(2) and 3.D.(3) provide for the exceptions to the General Rule.

(2) Separate Meters - Separate Billing

At the Company's option, the Company will install as many meters as a customer shall reasonably require because of unique physical or load conditions, provided that the circuit or circuits connected to each meter are kept separate from all other circuits. The service rendered through each of such meters shall be computed separately and billed on the applicable filed Rate Schedule. The installation of an additional meter at a building under this provision shall not entitle an applicant or customer to an additional allowance under Rule 3.B.

Additional meters will not be installed for the purpose of qualifying the customer's load for service under a different service classification than that otherwise applicable under Rule 3.D.(1).

When one service is used for both residential and non-residential purposes, the customer may elect to have the residential portion of his use separately metered and billed on the applicable residential service classification.
