 INITIAL EFFECTIVE DATE: 06/01/13 SUPERSEDING REVISION: 7
 STAMPS:

SERVICE CLASSIFICATION No. 7
Interruptible Transportation Service (Continued)
 (Rate Codes: 710, 710A, 711, 720, 721)

C. Rate Information:

The rate per meter per month will be the applicable posted Service Classification No. 4 rate less the TC floor price as defined on Leaf No. 77 except for those customers taking service under individually negotiated service agreements. These categories are defined as follows:

(Rate Code 710) - Category A: Customers who are exempt from the Petroleum Business Tax and whose annual thermal energy requirements are less than 100,000 dth;

(Rate Code 711) - Category C: Customers who are not exempt from the Petroleum Business Tax and whose annual thermal energy requirements are less than 55,000 dth;

(Rate Code 720) - Category B: Customers who are exempt from the Petroleum Business Tax and whose annual thermal energy requirements are equal to or greater than 100,000 dth;

(Rate Code 721) - Category D: Customers who are not exempt from the Petroleum Business Tax and whose annual thermal energy requirements are equal to or greater than 55,000 dth; and

(Rate Code 710A) - Category DSRS: Customers whose geographic location on the Company's distribution system prevents the Company from providing a higher level of service. Gas service under this Category will be interrupted first followed by the other categories under this Service Classification.

D. Minimum Use Charge:

The minimum use charge is \$1,580.40 per meter per year, exclusive of increase in rates and charges except for those customers taking service under individually negotiated service agreements.

E. Penalty Charges Applicable to Electric Generators

The Company reserves the right to impose penalty charges to electric generators taking service under this service classification. When service hereunder is interrupted by the Company in accordance with the terms of the Customer's service agreement, gas consumed subsequent to such interruption and without specific authorization by the Company will be subject to an unauthorized overrun penalty charge of \$100.00 per dth. Additionally, when the Company issues an Operational Flow Order (OFO) to implement hourly balancing and the electric generator subsequently consumes more gas than it deliveries (adjusted for system use and losses), any negative imbalance that results during the OFO will be subject to an Operational Flow Order Penalty Charge of \$100.00 per dth.

F. Heating Value Adjustment:

The volume of gas registered by the Customer's meter, in CCF, will be converted to therms as explained in Rule II.3G.

G. Increase in Rates and Charges:

The rates and charges set forth in this Service Classification including Minimum Charges are increased by the applicable percentage as explained in Section III.2 for service supplied within the municipality where the Customer is taking service.

H. Statement of Rates and Charges for Interruptible Service

The Company will file with the Commission a Statement of Rates and Charges for Interruptible Service which will set forth the Variable Monthly Rates applicable to this service classification prior to the date which it is proposed to become effective.
